A PERFECT OUTDOOR CLIMATE,  
FOR ALL SEASONS, DAY & NIGHT,  
FOR EVERY REGION, FROM  
SUNBELT TO SNOWBELT...

- ✓ Earthquake resistant (reinforced columns)
- ✓ Water resistant (closed position)
- ✓ Wind resistant screens (37.2 mph)
- ✓ High snowload for winter season (40.96 lbs/sqft)
- ✓ Miami-Dade County approved: Hurricane resistant\*

All our elegant aluminum pergolas offer a louvered roof system, operable with a remote control. The blades rotate and enable you to decide how much sun protection and/or ventilation you require. When closed, the blades form a water-resistant roof.

## CAMARGUE® LINE

The Renson Camargue louvered pergola is for anyone who loves an attractive, sleek finish.

- ☑ All accessories are integrated in an invisible way
- ☑ Customizable with the most extensive range of accessories
- ☑ Customized down to the last inch
- ☑ Two models available: Camargue or Camargue Skye

California, USA

## CAMARGUE®

Blades open and close

Oregon, USA

## CAMARGUE® SKYE

Blades open, close and retract for a full sky

Wauthier Braine, Belgium

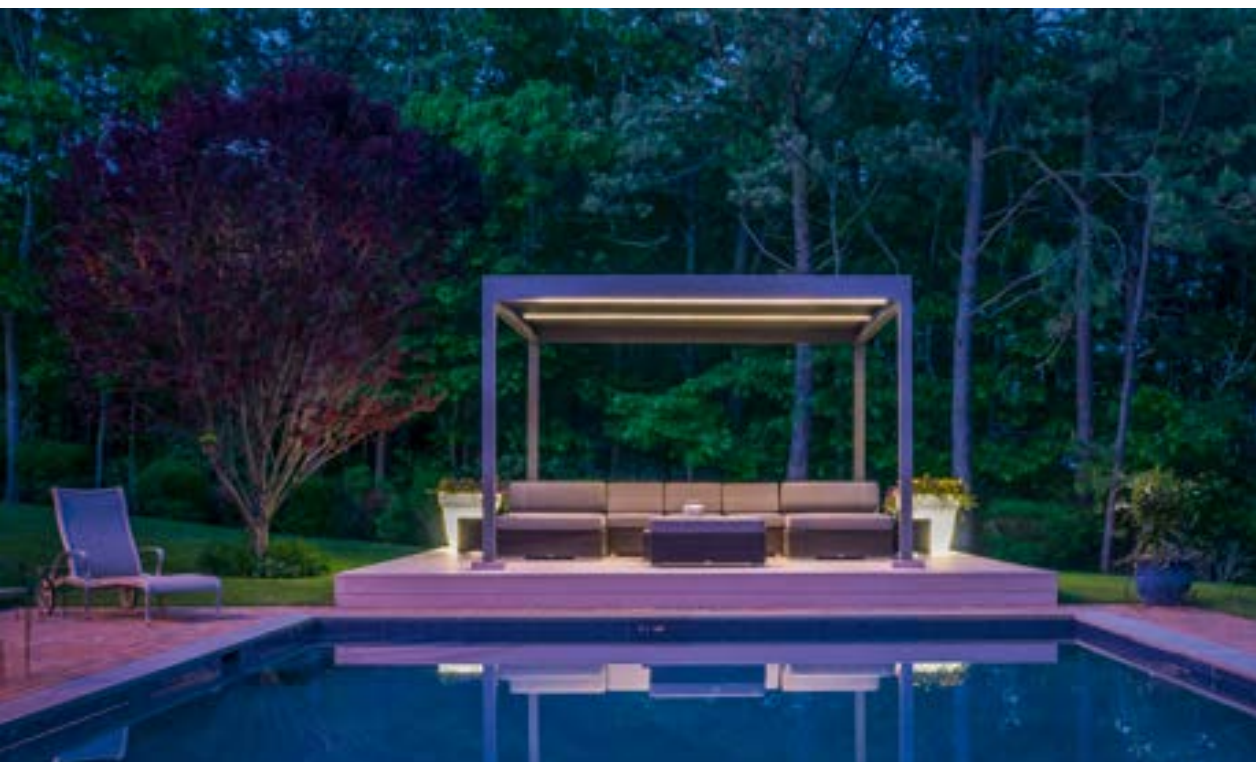

Vancouver, Canada

# ALGARVE®

The Renson Algarve pergola is made in the U.S. and is an exceptional versatile pergola. It can be attached to the facade or freestanding. You can connect various pergolas to each other.

☒ Blades open and close    ☒ Bespoke range of accessories    ☒ Side elements can be surface-mounted

# PERSONALIZE TO YOUR OWN DESIRE AND NEEDS

Available in more than  
**100 textured coating  
colors**

## Easy remote operation

You can operate your patio cover easily using Somfy automation. You can operate the roof and/or the screens.

## Made to measure

Within max. dimension sizes

## Colomno LED Light

LED lighting integrated into the columns – Camargue Line

## UpDown LED Light

Integrated LED lighting on the inside of the frame. Fitted with lighting directed upwards and/or downwards, for the Camargue, Algarve and Aero Line.

## Lineo LED Light

LED lighting integrated into the blades – Camargue, Algarve and Aero Line.

## Heating & Sound

Perfect complement to the Camargue, Algarve and Aero Line.

## Sliding panels

With our vertical sun protection sliding panels, you can even influence the way sunlight penetrates your pergola (dynamic sun protection). The sliding sun protection panels are constructed using aluminium frames in combination with louvers in either aluminum or wood.

## Integrated ZipShade

Thanks to an ingenious zip system, each screen is windproof in every position and is insect-proof when closed. The key to this well-engineered system is a special zippered trim that ensures the screen fabric is held in place firmly by the two side channels.

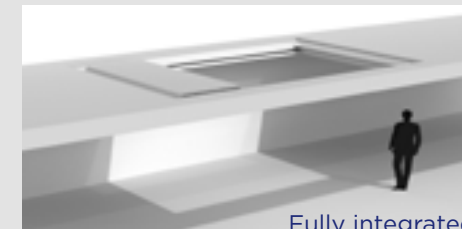

## Glass sliding walls

Consider installing sliding glass walls to accentuate the elegance of Camargue Line and Algarve Line. Not only does this protect you from the elements, but the patio cover can also be a tremendous theft deterrent.

## FIT-TO-PROJECTS INSTALLATION METHODS
